

STATEMENT OF INTENT

Dear Student,

It is a policy of The Run Beyond Project to seriously consider the continued participation of students who have been suspended throughout the program, or who have been otherwise involved in behaviours or serious incidents which have the potential to bring the project into disrepute.

Students sign a contract including a commitment to “representing The Run Beyond Project proudly and appropriately.”

It is our view that serious behaviour issues constitute a breach of this contract.

Of greater concern, however, is that these behaviours have the potential to impact adversely on The Run Beyond Project’s capacity to help other deserving students by harming our reputation, placing essential partnerships in jeopardy, and limiting our ability to form new partnerships essential for continued growth.

We understand that our participants are human. We all make mistakes. The Run Beyond Project has a strong desire to assist our participants through difficulties. Resilience is a capacity we strive to develop in students, but we cannot do this without a renewed commitment on your behalf.

In light of recent events, for continued participation in The Run Beyond Project, our board members need to review and approve a student Statement of Intent to improve behaviour such that it proudly represents The Run Beyond Project at all times. As a participant, you are an ambassador even when not in Run Beyond uniform. The below statement of intent will be discussed with the board and your cohort teacher. You will receive a response within 3 days of submission.

Student Statement of Intent

I, _____ (print name) hereby confirm _____
